

8-Hour Ozone Nonattainment Areas (1997 Standard)

Nonattainment areas are indicated by color.
When only a portion of a county is shown in color,
it indicates that only that part of the county is within
a nonattainment area boundary.

The Illinois portion of the St. Louis, MO-IL 8-hr Ozone (1997 Standard) nonattainment area was redesignated on June 12, 2012, while the Missouri portion has not. The entire area is not considered in maintenance until all states in a multi-state area are redesignated.
